

ARUNA-C

Carry With Confidence

Introducing Aruna-C, a rugged multicopter to suit your cargo delivery needs in commercial areas. It offers a solution for efficient long-distance deliveries.

Deploy it anywhere with confidence, thanks to its robust power plant and avionics capable of sustaining subzero temperatures. These features support the vehicle in challenging conditions such as heavy winds, low temperatures areas. The foldable propellers and arms make it conveniently portable, fitting into a compact box.

Dual Redundant GNSS

Dual redundant GNSS receiver
Centimeter-Level positional accuracy in RTK mode..

HD Camera

High-Definition Gimbal camera for surveillance
Compact and Light weight
Featured with digital zoom

Foldable Arm

High grade Aluminum based folding mechanism to facilitate transportation
Easy to lock, Faster in deployment

Cargo Drop

6kg payload delivery capability
Customizable cargo handling system as per payload requirement

Swappable Batteries

In-house battery with rugged casing for extended durability
Rapid swapping capability for repeated deployment

LIDAR (optional)

360 degrees surround view on horizontal plane for situational awareness
Point lidars for precise landing
